

PICTURESQUE PATTERNS

Patterns in interiors are a rage today. Patterns not only add a dash of colour, but also help instantly infuse elegance to wooden floors. Greenlam has come up with an exciting new range of patterns in wooden flooring.

Oak Winter

Oak Winter by Mikasa premium engineered wooden floors from the house of Greenlam Industries Ltd. is the perfect escape into a lively realm of comfort and buoyancy. For a breathtaking look and feel, choose playful patterns. Gone are the days when beige and browns were considered too muted and dull. Reboot your interiors with colours like brown, cremes with gold accents that exude confidence and merriment. Try to keep minimal statement furnishings with open spaces, beautiful wall art and a coffee table that will imbibe a touch of whimsy in your room.

Silver Streaks

Silver Streaks by Decowood Veneers from the house of Greenlam Industries Ltd. enhances your walls with intrinsic patterns that add an element of interest to your walls. While an engineered veneer is not a natural product, it is reconstituted to make pre-designed appearance. These decorative veneers are eco-friendly with an ability to match natural patterns. They offer a timeless elegance when paired with tones of ash grey, off-white and pastel brown. Place vintage yet minimal wall hangings along with statement furnishings which will give a whole new spin to this look. Black being everyone's true companion and saviour to decorating, incorporate classic swinging chairs in this colour for a modern and authentic ambience.
